Shorewood, Wisconsin

Carpentry and Construction

Carpentry provided to complement general renovation, redecoration, and redesign services. From baseboards to crown moulding, cabinetry to built-ins, decks to fencing, we have the experience to deliver superior wood work for your next project. Whether your construction requires full wall replacement, framing, insulating, wall removal, relocation or simply patch work, W. Briggs can do it!

 **Cabinetry** Cabinet design, construction, and installation. Pre-assembled or custom cabinetry for any space in your home. Design of non-standard cabinet sizes and shapes built to your specifications. Delivered to your home and installed. Or let us refinish, reface, or repair your existing kitchen cabinets to make them look like new!

 **Trim Carpentry** Crown moulding, baseboards, chair rails, door and window casings.... Whether you want install new trim, replace or restore existing woodwork, or simply repair it, W. Briggs can do the job.

 **Stairs and Railings** Stairs and handrail replacement and restoration. Complete stairway services for any exterior or interior renovation or update including design, construction, and installation.

 **Walls** Wall removal or relocation. Open up the space in your room by removing an unwanted wall. Add a closet or pantry.

 **Framing** Light construction framing of walls, doors, or windows.

 **Drywall** Drywall services include replacement or repair of existing walls

and ceilings as well as complete drywall finishing of new construction.

Doors and Windows

We remove your old window or door to our shop, restore it to its original condition. Stripping the old finish often requires flammable, toxic solutions that makes it necessary to perform off-site whenever possible. We also re-glaze windows to ensure a tight, weather-resistant seal and can often restore your old hardware.

 **Storm Doors** We can help you in selecting your new storm door. We measure, order, deliver and install your new storm door at a reasonable rate. Feel free to contact us today to schedule your new storm door consultation.

 **Screen Replacement** Screen repair or replacement. Fabrication of replacement screens for combination storm windows. Finding replacement summer screens for legacy windows of any shape, size, or style; delivered, trimmed to fit, and installed.

 **Broken Glass Replacement** Replace broken glass in windows. Re-glazing. Frame repairs.

 **Frame Repairs** Frame repairs included in restoration of windows, storms, or screens to ensure an accurate, tight fit.

 **Restorations** A specialty of W. Briggs since the beginning, we are uniquely qualified to restore windows and doors of any size, shape, or style. From slabs to paneled, from double-hung to mullioned, old or new, W. Briggs is your go-to source for complete restoration and repair of the windows and doors in your home.

 **Garage Doors** Garage door installation, upgrade, or repairs including installation of automatic garage door openers.*

Light Electrical Services

Light electrical services including wiring and installation of wall outlets, switches, & lighting fixtures, ceiling fans and more.*

 **Ceiling Fans** A light breeze on a hot day or cozy warm in the winter, ceiling fans save money and keep you comfortable. We provide new installations, including wiring in some cases, as well as replacements and repairs.

 **Light Fixtures** Let us help you find the perfect new fixtures to light up any room in your house. Wall sconces, overhead, decorative or task lighting. We'll order a new fixture for you, deliver, and install it, or replace glass and repair original or existing lights.

 **Switches** Modern toggle or rocker switches, dimmers and antique style push-buttons, we repair existing or replace with replicas to match existing switches.

 **Outlets** Wall outlet installation or replacement. Upgrade out-of-date duplex outlet with grounded or ground fault circuit interrupter (GFCI) outlets for safety in wet areas. Replace extension cords by installing a new wall outlet (or two) in any room of your home.

Painting

From selection of colors to removal of wallpaper, crack and imperfection repair prior to painting, from priming when necessary to finish coat, your fresh paint will look great.

 **Wallpaper Removal** Complete removal of wallpaper is required before painting. It's a messy step and you might want to do it yourself to save. Or...let us take care of the chore for you to ensure all material and adhesives are completely removed before painting.

 **Surface Cracks Repair and Preparation** It's important to repair and close any and all 'breaks' in the integrity of a ceiling or wall before painting. Doing so ensures the quality of the finished paint job, and helps seal the room from drafts of cold air.

 **Primer** Often the essential step missed when painting, priming sealed cracks and bare walls ensures the best finish coat possible.

 **Interior Painting** Inside, outside, anywhere in or on your house.

 **Exterior Deck or Fence Coatings** Stain and seal your decks and fences; not just to make them look nicer, but to ensure they'll last a lifetime against the ravages of weather and time.

Light Plumbing Services

Light plumbing services including: snaking clogged pipes, fix leaking pipes or valves, installing plumbing for a dishwasher, water closet or sink basin replacement.*

 **Leak Detection** Leaky faucet, drain, or pipes? Let W. Briggs investigate to find the source of the leak, determine its cause, and repair it. Leaky plumbing not only wastes precious water, it can rot wood and corrode hard materials leading to damage more severe and costly to fix later. W. Briggs Home Improvement can help you resolve your leaky plumbing before its too late.

 **Drains** Snaking clogged drains and cleaning them to ensure safe and swift disposal of waste water.

 **Plumbing Repair & Service** Light plumbing repairs and service are offered to help you save money and time where replacing a washer or fitting, or an existing damaged fixture or faucet are all that's required. (For larger problems we'll refer you to a qualified licensed plumber, but let us take a look at it first. You might save a bundle.)

 **Faucet Installation** Old faucets replaced or new ones installed with new fixtures? Standard or stylish, old-fashioned or the latest modern designs, shiny new faucets add a touch of class to any kitchen or bathroom in the house.

 **Toilet Installation and Reseating** W. Briggs can install a new toilet or reseal an old one to make sure it's level and water-tight.

 **Sink Installation and Replacement** Sinks are designed to last a long time but suffer from wear and tear like any other fixture in the home. A new sink may be larger (easier to do the dishes) or smaller (better fit in a tiny bathroom). Maybe you'd like a modern look? Or something that looks like it was original in an old home? Let W. Briggs remove the old one and put in the new.

 **Garbage Disposals** Replacement of worn or damaged garbage disposals in a kitchen, or addition of a new one to enhance cooking and cleaning convenience. Either way, W. Briggs will do the job quickly, for less.

 **Dishwasher Installation** From unboxing to plumbing and electrical hookups, to final woodwork trim and finish, W. Briggs leaves you with a new dishwasher purring quietly in the background and looking beautiful alongside your kitchen cabinetry.

* Some services may be subcontracted to specialists in their service area. In these cases, W. Briggs takes care of all the details for you, from scheduling through work site supervision, delivery acceptance, and quality assurance.
